

## eBN Enhancements

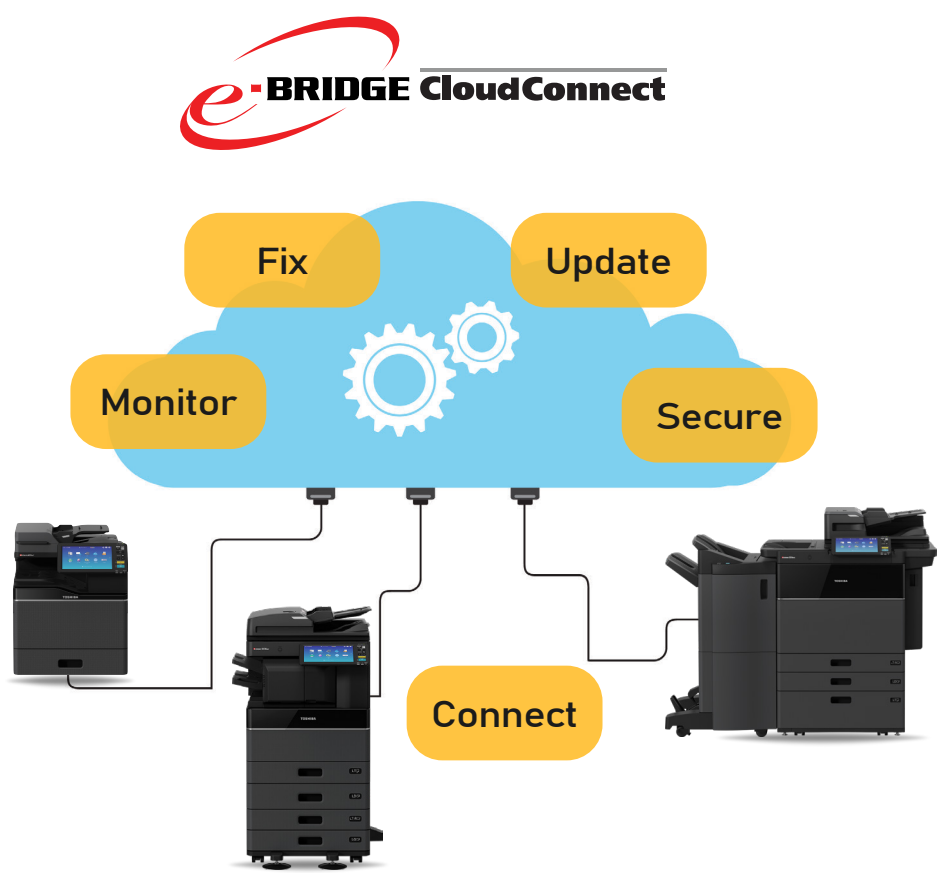

Utilisation of the cloud platform is propelling the concept of convenience to the next level. The availability and compatibility offered within the cloud is unmatched, ensuring ease of use anytime and anywhere, alongside our Toshiba eBN Series. Toshiba Cloud Solutions features the all-new:

- Cloud Print Infrastructure from **Microsoft Universal Print**
- No-Install Native Print from **Chrome OS**
- Personalised Design UI packages with **Elevate**
- Seamless integration to popular cloud platforms on-the-go with **e-BRIDGE Plus**
- Compatible with 3rd-party secure print management by **Papercut Hive**

## Cloud Service Tools

The cloud not only allows for seamless integration with solutions, as it serves as a platform to revolutionise service and the management of it. Our e-BRIDGE Cloud Connect (eCC), paired with the e-BRIDGE Remote Assist (eRA) and Remote Diagnosis Tool (eRDT) are designed for more proactive and hassle-free maintenance!
